

Receive Double-Opt-In confirmations

Unknown macro: 'seo-metadata'

Description

Use the feature **GetDoiInformationsRequest** to receive DOI-information for a given period of time.

Available starting from Backclick-Version: 5.9.19

In order to receive a list of DOI-information, you have to provide the following information:

- **Mandator ID**
- **Start-Date**
- EndDate wenn kein End Datum angegeben wird, werden die Daten bis zum jetzigen Zeitpunkt ausgegeben. *optionale Angabe*
- API-Key (optional authentication, if not provided the IP address will be used for authentication)

As a result you will receive a list of email addresses containing the date and mailing list of all applicable subscribers.

Example

```
$client = new SoapClient($wsdlUrl);
date_default_timezone_set('Europe/Berlin');

$getDaoInformations = new StdClass();
$getDaoInformations->mandatorId = 0;
$getDaoInformations->apiKey = 'apiKey';
$getDaoInformations->startDate = date
//$getDaoInformations->endDate = 0;
try {
    $result = $client->getDoiInformations($getDaoInformations);
    var_dump($result);
} catch (Exception $e) {
    //Hier ist ein Fehler aufgetreten und abgefangen worden, wir geben die Fehlermeldung aus.
    echo "Error: " . $e->getMessage() . "\n";
}
```

Beispielausgabe

```
object(stdClass)#3 (1) {  
  ["doi-notification"]=>  
  object(stdClass)#4 (1) {  
    ["email"]=>  
    array(2) {  
      [0]=>  
      object(stdClass)#5 (3) {  
        ["_"]=>  
        string(31) "test231645978@backclick-test.de"  
        ["confirmation_date"]=>  
        int(1453984102)  
        ["newsletters"]=>  
        string(1) "3"  
      }  
      [1]=>  
      object(stdClass)#6 (3) {  
        ["_"]=>  
        string(28) "test871199@backclick-test.de"  
        ["confirmation_date"]=>  
        int(1454065482)  
        ["newsletters"]=>  
        string(1) "1"  
      }  
    }  
  }  
}
```
